

Welcome to our B.Sc. Computer Science Classes!

Our B.Sc. Computer Science course is designed to provide students with a strong foundation in the principles and practices of computer science. Our experienced faculty members have designed the course to meet the current industry standards and to help students achieve their career goals. We offer both classroom and online courses to cater to the diverse needs of students.

Our Course:

Computer Science: Our Computer Science course covers topics such as programming languages, data structures, algorithms, operating systems, and computer networks. This course is ideal for students who want to pursue careers in software development, web development, and computer networking.

Fees:

Our fees for the B.Sc. Computer Science course are 8000 per subject . The fees cover all the study materials and resources required for the course. Payment options are available, including installments.

Why Choose Us:

Experienced Faculty: Our faculty members are highly experienced and qualified in their respective fields, providing students with in-depth knowledge of the subject matter.

Comprehensive Course Material: We provide comprehensive course material to help students understand the concepts thoroughly and prepare for exams.

Personalized Attention: We provide personalized attention to each student to ensure that they receive the best possible education and achieve their career goals.

Industry-relevant Curriculum: Our curriculum is designed to meet the current industry standards, ensuring that our students have the necessary skills and knowledge to succeed in the field of Computer Science.
